All Kings Transit Buses are Fully Accessible

- Low floor buses for improved accessibility
- Operator will “kneel” the bus on request to curb level
- The Entry or Exit Ramps will be lowered for any passenger who requires assistance in embarking or disembarking the bus, although Operator discretion applies under winter or wet conditions.
- Extra wide passenger door
- Safe and secure wheelchair “tie-down” spaces.

Mobility Devices

Kings Transit is pleased to provide accessible travel assistance to passengers who are mobility impaired. Every bus in our fleet is low floor accessible and can carry two mobility devices provided they conform with the rules outlined in this policy.

Due to interior cabin and aisle/ramp size constraints, in order to avoid damage to our buses and negative impacts to our service schedule, only zero radius mobility devices

can be accommodated. In addition, dimensions/ attributes for mobility devices must fall within the following ranges:

- Length: not greater than 122 cm (48 in.)
- Width: not greater than 71 cm (28 in.)
- Weight: 273 kg (600 lbs.) (combined weight including the transit rider and mobility aid.)

All mobility devices shall have at least two anchor

or tie down points, and should have 4 anchor or tie down points if possible to secure the device to the bus. These are not provided by Kings Transit and are the responsibility of the passenger to provide. All devices must be in good repair and have a working braking system.

For the safety of other passengers, flags, mirrors or other protruding objects must be removed or folded prior to embarking on a bus.

Kings Transit has four buses (Units 46, 49, 50 and 59) equipped with a rear-facing restraint system; for these buses, it is essential that all mobility devices conform to the following:

- Front brakes must be applied and/or the power switched off when the bus is in motion.
- Bags/knapsacks/ packages must be removed from the back

of the device before securing the device for transport; the Operator is not responsible to remove these items. The passenger (and not Kings Transit) is responsible for the contents of their bags/knapsacks/ packages.

To ensure the safety of our Operators and bus passengers, Kings Transit is unable to provide service for mobility devices that do not fall within the dimensions described above or if a passenger refuses to comply with the passive restraint securement requirements; service may be denied at the Operator’s discretion. In addition, the Operator will not be able to assist in embarking or disembarking the device (lifting or pushing the device up the ramp, etc.).

POLICIES

For the comfort and safety of all Kings Transit passengers, we ask that all passengers follow the rules of the road.

General Conduct

Respectful conduct toward the Operator and passengers is required at all times; profanity, disrespectful speech, horseplay or threatening behaviour are grounds for denial of service at the discretion of the Operator.

Animals

Service animals or Guide Dogs are permitted with proper identification; they must remain leashed under complete control of the owner at all times. Pets are permitted but must be restrained in an enclosed cage that prevents their escape.

Cell Phones and Electronic Devices

While the use of cell phones is permitted, please minimize the volume of conversations. Headphones must be worn when using music media players, with volumes at a minimum to avoid disturbing other passengers.

Clothing

A shirt or top and footwear is required for wear at all times.

Food and Beverages

Consumption of food is prohibited. As there is the potential for spillage during the acceleration or deceleration of a transit bus, beverages may only be consumed if contained within a spill proof container. Single use beverage cups are prohibited.

Garbage and Recycling

The transportation of garbage, recycling, or composting is prohibited.

Identification

At the discretion of the Operator, passengers bearing reduced fare media (Seniors and Students) may be required to produce identification for proof of age.

Roller Blades and Roller Skates

Roller blades or skates are not permitted to be worn on a bus.

Scents

As some passengers may have allergies or sensitivities, the wearing of scents is discouraged. Kings Transit reserves the right to deny service to passengers with strong scents or odours.

Scooters

Two wheeled scooters are permitted provided they can be folded and held secure by the owner.

Smoking

Smoking is prohibited while on transit buses, or in any terminal or bus shelter. The use of electronic smoking devices (e-cigarettes, vape, etc.) and cannabis products is prohibited.

Strollers

When space is limited and at the discretion of the Operator, passengers may be required to remove children and fold strollers. For safety strollers must be held secure at all times
